

WILLOW WATERHOLE GREENSPACE CONSERVANCY FIRST ANNUAL FUN RUN and WALK

SATURDAY OCT 13th, 2007

Early Registration Form

The Willow Waterhole Greenspace Conservancy (WWGC) is a non-profit organization of community partners, dedicated to the establishment of a major park in Southwest Houston. Its objective is to assist and nurture the partnership of the Harris County Flood Control District and the City of Houston Parks and Recreation Department in the development of this Park. As part of the larger Brays Bayou improvement project, the Willow Waterhole Greenway Project will have a series of interconnected permanent lakes suitable for fishing and boating with a variety of recreational amenities and an emphasis on conservation of our natural resources.

A healthy parks system makes a substantial contribution to the quality of life in major metropolitan areas such as Houston. However, a challenge for our organization is the availability of finances to support the desire for additional amenities on site, specifically more trees with an irrigation system as well as acquisition of additional land. *Come out and experience Southwest Houston's newest Greenspace!*
